

How to separate and dispose of resources and garbage

Separation dictionary

Shiwa-cho
version

Published March 2022

3R is SDGs (Sustainable Development Goals) that can be done at home

3Rs for waste amount reduction

- ① Let's use it carefully and reduce the amount of garbage!
- ② Let's use it many times, repair and use it!
- ③ Let's sort for recycling!

REDUCE

① Do not buy anything that becomes garbage

- Take good care of things
- Bring your own eco bag and your own bottle
- Refuse overwrapping
- Do not buy disposable items

First, let's reduce the generation of garbage.

REUSE

② Use repeatedly

- Use of returnable container
- Repair and use for a long time

Reuse things repeatedly for a long time without disposing of them as garbage.

RECYCLE

③ If separated properly, garbage becomes resources.

- Observe the sorting rules
- Buy recycled products
- Utilize collective resource collection and over-the-counter collection

If it becomes garbage, let's return it to resources.

How to separate and dispose of **resources** and **garbage**

Types of resources and garbage

Please check the garbage collection calendar in your area for the collection date.

	Types	Collection date, etc.	Bag color	Publish page
Resource	Raw garbage	Twice a week (not in some areas)	Bucket collection	3P
	Plastic containers and packaging 	Once a week	Green	4P
	Paper containers and packaging 	Twice a month (every other week)	Green	4P
	Newspapers / magazines	2-3 times a month (every other week)	Tie it to a cross with a paper string	5P
	Paper packs and PET bottles 	2-3 times a month (every other week)	Green	
	Empty cans / bottles 	Twice a month (every other week)	Green	6P
	Corrugated cardboard 	Once a month	Tie it to a cross with a paper string	6P
	Old clothes	Once a month	Green	
	Small household appliances	To the dedicated collection box at the collection base	Unnecessary	7P
		Large, non-burnable garbage when you put out at the collection point.	Blue	
	Hazardous / dangerous garbage	Put fluorescent tubes and light bulbs in a box and put them in a separate bag on the day of "empty cans / empty bottles". Others go to the dry battery collection box at the garbage collection point.	Green Unnecessary	8P
Garbage	Dry batteries	To the dry battery collection box at the garbage collection point	Unnecessary	8P
	Large, non-burnable garbage	Once a month (Things that do not fit in the bag can be left as they are)	Blue	8P
	Burnable garbage	Twice a week	Red	9P

Designated bag

Burnable garbage bag

Please put burnable garbage in the bag.

Resource garbage bag

Plastic containers and packaging / Paper containers and packaging
PET bottles / empty cans / empty bottles
Hazardous / dangerous garbage (fluorescent tubes, light bulbs)

Non-burnable garbage bag

Please put extremely dirty empty cans, empty bottles, etc. which contain paint and daily necessities made of metal, glass, or crockery ware.

Items that cannot be put out at the collection point

Types	Disposal procedures	Publish page
Items that are not collected but are accepted	Ask the collector to collect it, or make a reservation in advance and bring it in directly.	9P
Temporary large amount of garbage due to moving, etc.	Ask the collector to collect it, or make a reservation in advance and bring it in directly.	9P
Items not collected / accepted	Consult your shop or a specialist.	10P
Business garbage (garbage generated at work)	The Waste Management Law requires that business garbage be properly disposed of at the responsibility of the business operator. Regardless of the amount or type, it cannot be put out at the household waste collection point.	

3 principles of garbage disposal

Put designated items

Please use the designated bags and sort garbage properly for disposal.

To the designated place

Please check with the neighborhood association etc. for your garbage collection point.

At a designated date and time

Please take it out to the designated collection point by 8 am on the designated day.

If garbage that does not comply with the three principles of garbage disposal is put out at the collection point, the yellow card on the left will be attached to the infringing garbage and it will not be collected.

The reason for the violation is checked on the yellow card, so please take it home once, check the details of the violation, and dispose of it properly at your own responsibility.

The garbage collection point is kept clean with the cooperation of the local people.

Please follow the three principles of waste disposal and cooperate with proper garbage disposal.

Separation of resources and garbage

1 First, separate resources.

Resources

Raw garbage

- Raw garbage collected in a raw garbage bucket is recycled as compost "Denen Yuki".
- Please be sure to put out the local raw garbage collected in the raw garbage bucket on the day of raw garbage.
- **Please drain thoroughly.** It has a great effect on amount reduction.
- Dispose of non-fermented foods (bones, seashells, eggshells, bean shells, etc.) as "burnable garbage".
- When you put out raw garbage in a plastic bag, please be sure to bring back the empty bag.
- Be careful not to let foreign matter such as vinyl, spoons and forks inside.
- For local raw garbage that is not collected in a raw garbage bucket, try to reduce the amount by using a raw garbage disposal container.

Raw garbage

Please do not put bones, seashells, eggshells, etc.

Please drain thoroughly.

What is container packaging?

Plastic containers and packaging and paper containers and packaging **are containers and packaging that you can no longer use or eat the contents of the product.**

A "container" is for putting a product (including a bag), and a "packaging" is for wrapping a product. According to the Containers and Packaging Recycling Law, containers and packaging is defined as "something that is becoming unnecessary when the contents are consumed or separated from the contents."

Made of plastic Containers and packaging

- Plastic containers and packaging are recycled as plastic products such as artificial wood and pallets.
- Check the recycle mark.
- Please take out the ones that are not dirty or wet.
- Dispose of items that are difficult to remove, terrible, or unwashable as "burnable garbage."
- Please put it in a bag so that people can know the contents.

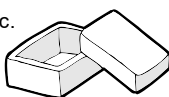

Made of plastic
Container and packaging recycling mark

★ Dirty and wet items cannot be recycled, so they are burnable garbage.

Net of fruits, etc.

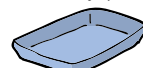

Styrofoam

Medicine container
(made of plastic)

Food tray (colored)

Pudding jelly container

Toilet paper packaging

Containers for
strawberries and
tofu (soy bean curd)

Shampoo container
(remove the nozzle and
put to burnable garbage)

Containers for dairy products

Shopping
bag

Container of
cup ramen

Exterior film for
vegetables, etc.

Container for lunch box
(You do not have to remove the price tag sticker)

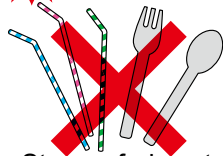

Ice cream container

Attention

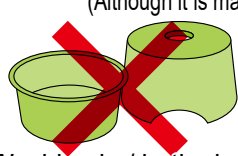

Things not applicable

These things become "burnable garbage".

(Although it is made of plastic, it does not fit into the category of "container" or "packaging")

Straws, forks, etc.

Washbasin / bath chair

Toys, etc.

Cases for CDs, DVDs, videos, etc.

Paper containers and packaging

- Paper containers and packaging are recycled as raw materials for papermaking or recycled paper boards using used paper.
- Check the recycle mark.
- Please take out the ones that are not dirty or wet.
- Dispose of items that are difficult to remove, terrible, or unwashable as "burnable garbage."
- Please put it in a bag so that people can know the contents.

Middle mount paper
of white shirt

Gum or chocolate wrapping paper

Pack of sake (Japanese liquor, etc. (with aluminum foil inside))

Cap

To plastic
containers and
packaging

The spout does
not have to be
cut off

Pack

To paper containers and packaging

Attention

Things not applicable

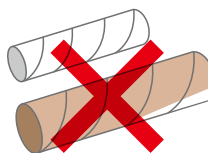

Envelope

To "newspapers / magazines" or "burnable garbage"

Flyers etc.

To "newspapers / magazines"

Core such as plastic wrap

For hard things, go to "burnable garbage"

Paper pack

To "paper pack"

Newspapers / magazines (used paper)

- Newspapers and magazines are recycled as raw materials for papermaking.
- Please pack and put out each newspaper and magazine within a thickness of 30 cm.
- Please tie it in a cross with a paper string and put it out.
- **Please give priority to resource recovery at supermarkets and residents' associations.**

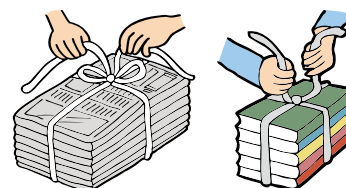

Newspaper

Newsprint

Insert leaflet

Magazines

Books such as independent books and paperback books (including hardcover books)

Manga (comics) books

Catalog

Weekly magazines and other magazines

Notebooks

Calendar
(Remove metal parts and put to large / non-burnable garbage)

* For newspapers and magazines, tie them in a cross with a paper string.

Paper pack

- Paper packs are recycled as toilet paper, tissue paper, etc.
- Check the recycle mark. Paper containers and packaging items with the recycling mark should be put out in "paper containers and packaging".
- Open the container, wash it, put it in a bag and take it out.
- Please put it in a bag so that people can know the contents.
- **Please give priority to resource recovery at supermarkets and residents' associations.**

Paper pack
Recycling mark

★ Pack for sake (Japanese liquor), mirin, etc. in paper containers and packaging.

PET bottles

- PET bottles are recycled as chemical fibers and PET bottles.
- Check the recycle mark.
- PET bottles with contents cannot be put out. Please empty it and put it out.
- Put out plastic caps and labels in "plastic containers and packaging" and metal caps in "empty cans".
- Please put out containers such as sauce, mayonnaise, ketchup and cooking oil in "Plastic containers and packaging".
- Please put it in a bag so that people can know the contents.
- **Please give priority to resource recovery at supermarkets and residents' associations.**

PET
PET bottle mark

★ Items filled with contents cannot be put out as garbage.

★ Containers of sauces, mayonnaise, ketchup, cooking oil, etc. cannot be recycled as PET bottles.

How to put out a plastic bottle

Step ①

① Empty

Step ②

② Remove the cap

Cap to
"Plastic containers and packaging"

Step ③

③ Wash with water

Step ④

④ Take the label

Label to
"Plastic containers and packaging"

Empty can

- Empty cans are recycled as raw materials for iron and aluminum.
- Check the recycle mark.
- Cans with contents cannot be put out. When you take out an empty can, please be sure to empty it and put it in a bag.
- Please be sure to use up spray cans and cassette cylinders, and specify "spray cans" and "cassette cylinders" separately from the bag.
- Please do not put foreign substances such as cigarette butts.
- We do not collect or accept containers for poisonous substances such as pesticides and deleterious substances. Please consult your dealer shop.
- Please put it in a bag so that people can know the contents.
- **Please give priority to resource recovery at supermarkets and residents' associations.**

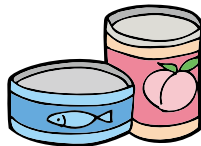

Steel can
Recycling mark

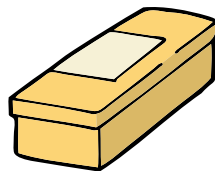

Aluminum cans
Recycling mark

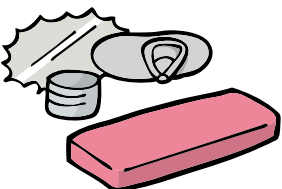

Beverage
cans

Canned food cans

Cans of sweets

Metal lids

Spray cans

Empty bottle

- Empty bottles are recycled as raw materials for bottles and roadbed materials.
- You cannot put out bottles with contents as garbage. When putting out an empty bottle, please be sure to empty the contents, remove the cap, and put it in the bag.
- Please put out metal caps in "empty cans" and plastic caps in "plastic containers and packaging".
- Please do not put foreign substances such as cigarette butts.
- We do not collect or accept containers for poisonous substances such as pesticides and deleterious substances. Please consult your dealer shop.
- Please put it in a bag so that people can know the contents.
- **Please give priority to resource recovery at supermarkets and residents' associations.**

Food and drink bottles

* Rinse the inside with water before putting it out.

Beer bottles 1.8-liter-bottle

* To resource groups, collection companies, or retail shops, as much as possible.

★ Please be sure to remove the cap attached to the bottle, and put it out in an empty can for metal and in a plastic container and packaging for plastic.

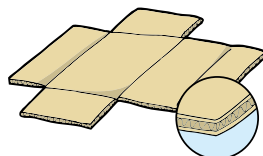

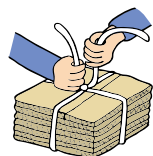

Corrugated cardboard

- Corrugated cardboard is recycled as corrugated board base paper.
- Please check the recycle mark and cross section.
- Corrugated cardboard with surface treatment such as water repellent finish is not recycled. Please put it out as "burnable garbage".
- Fold the corrugated cardboard and tie it in a cross with a paper string.
- **Please give priority to resource recovery at supermarkets and residents' associations.**

Corrugated cardboard
Recycling mark

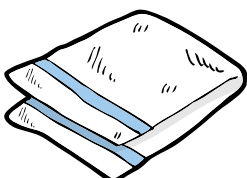

★ Just because it is made of hard paper does not mean that it is corrugated cardboard. Corrugated cardboard has a corrugated cross section.

Old clothes

- Old clothes is recycled as a raw material for textiles and waste cloth.
- Buttons and fasteners can be left attached. Please wash as much as possible before putting it out.
- Please put old clothes in a bag so that the contents do not get wet.

★ Please put old clothes in a bag so that they will not get wet.

2 Next, separate the items to be collected separately.

Collected separately

Small household appliances

- We collect precious metals from small household appliances.
- Remove the dry batteries and dispose of them in "Hazardous / Dangerous Garbage and Dry Batteries".
- **Remove rechargeable batteries such as lithium batteries, insulate the electrodes, and then put them in the collection box of the dealer shop.**
- If the rechargeable battery cannot be removed, completely discharge it before removing it.
- Please dispose of recording media such as CDs and DVDs as "burnable garbage".

Types of small household appliances to collect

Those passing through the entrance of the collection box (15 cm x 25 cm)

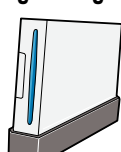

● Cell phone
Smartphone

● Phone
(Excluding dial type)

● Fax

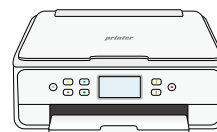

● Stationary type

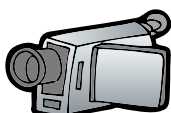

Handheld game console

● Electronic dictionary

● Photo printer

● Video camera

● Digital camera
Small camera

● Remote controller

● IC recorder

● Calculator

● Portable DVD / BD
Player

How to dispose

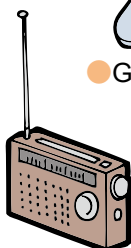

Please put it in the dedicated collection box installed at the next collection base.

● Game controller

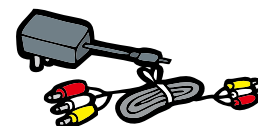

● Portable music player
CD player
MD player
Flash memory, etc.

● Portable radio

● Electronic Sphygmomanometer

● Electric cords, etc.
Cable
AC adapter
Extension cord, etc.

Lithium-ion batteries cannot be put out

If you can remove the rechargeable battery, put into the collection box at the store.

Small collection home appliance box installation location

Morioka City (Tonan area)

- K's Denki Morioka Minami store
(5 - 58 Sanbonyanagi, Morioka City)
- Homac Tonan store
(10 - 20 - 5 Sanbonyanagi, Morioka City)
- Universe Morioka Minami store
(2-17 - 50 Tsushidanishi, Morioka City)
- Morioka City Hall Tonan General Branch
(14 - 37 - 2 Tsushida, Morioka City)
- Morioka City Hall Iioka Branch Office

- Homac Yahaba store
(7 - 385 - 3 Minamiyhaba, Yahaba-cho)
- Yahaba Town Hall
(13 - 123 Minamiyhaba, Yahaba-cho)

Hazardous / dangerous garbage and dry batteries

- Glass, mercury, etc. are collected from fluorescent tubes, and metals are collected from dry batteries.
- Put fluorescent tubes and light bulbs in a bag separate from other garbage so that they will not break, and put them out on the collection day of "empty cans / bottles".
- Please put the batteries, razor, thermometer and disposable lighter in the dry battery collection box provided at the garbage collection point.

* Wrap fluorescent tubes and light bulbs in paper so that they will not break, or put them in a case (paper case for replacement, etc.).

★ Dry battery collection box

3 Next, separate the garbage that is not separated into resources.

Garbage

Large garbage

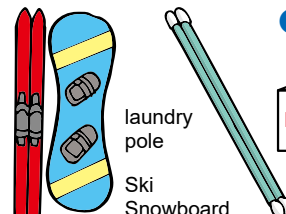

- Metals are collected from large-sized garbage.
- Large-sized garbage has a longest side of 1 m or more, a total of less than 3 m in length, width, and height, a longest side of less than 2 m, and a weight of less than 60 kg. We do not collect anything beyond this, such as electones, organs, pianos, electronic pianos (excluding portables), mattresses with springs, sofas with springs, large and fireproof safes, tatami mats, drums, home tanks, and bathtubs. For details, please refer to "What to request from a collector / What to bring in directly".
- Please put out lightweight flammable items (shelf storage boxes, plastic clothes cases, etc.) with a longest side of less than 1 m as "burnable garbage".
- For large-sized garbage that does not fit in the bag, please attach a note saying "Large-sized / non-burnable garbage" so that people can identify it as garbage.
- Please do not dispose of it as garbage. Instead, please dispose of it by such as selling it to a recycler as much as possible.

Furniture

★ When you put your bicycle out to the garbage collection point, please paste a note of "Large / non-burnable garbage" so that people can identify it as garbage.

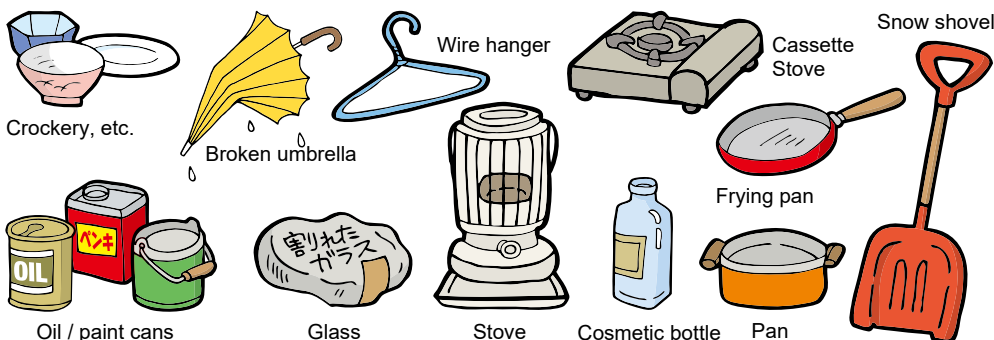

● There are size and weight restrictions.

Length + width + height is less than 3m

- The longest side is **less than 2m**
- Weight is **less than 60kg**

Non-burnable garbage

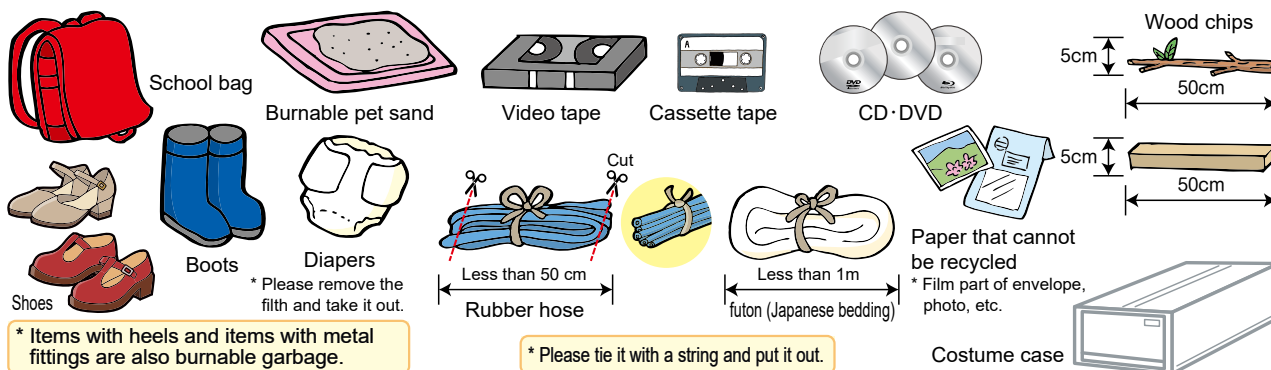

- Metals are collected from non-burnable garbage.
- You cannot put out bottles with contents as garbage. Please use it up and empty it before putting it out.
- Please wrap crockery ware scraps, flat glass, and broken glassware products in paper, then put them in the bag carefully so that the bag does not tear, and put the bag out as garbage with the contents clearly specified on the bag.
- For kerosene heaters, please be sure to drain kerosene and remove the dry batteries.
- For tube-type lamps, please be sure to remove fluorescent lamps and incandescent lamps before putting them out.
- Please be sure to remove the cassette cylinder before putting out the cassette stove as garbage.
- Please put it in a bag so that people can know the contents.

★ Please wrap crockery ware scraps, flat glass, and broken glassware products in paper, then put them in the bag carefully so that the bag does not tear, and put the bag out as garbage with the contents clearly specified on the bag.

Burnable garbage

- Burnable garbage is not recycled. Let's thoroughly separate and try to reduce the amount.
- Please never mix dangerous materials such as metals, spray cans, disposable lighters, fireworks and gunpowder.
- Please harden cooking oil or soak it in cloth or paper before putting it out.
- Wood chips, pruned branches, etc. are accepted only if they are 50 cm or less in length and 5 cm or less in thickness. Items exceeding this size will not be collected or accepted. Please cut it below this and put it out.
- Please dry grass, fallen leaves and pruned branches before putting them in a bag and putting them out at the collection point. If the amount is large enough to bother other people, please separate into several batches and put out 2 to 3 bags at a time.
- Please put it in a bag so that people can know the contents.

Medical waste

Of the medical waste at home, non-infectious waste such as vinyl bags should be labeled as medical waste and disposed of. Please consult a medical institution as you cannot put out sharp objects such as injection needles.

Items not collected

Items that are not collected but are accepted (garbage specified for direct delivery / charged)

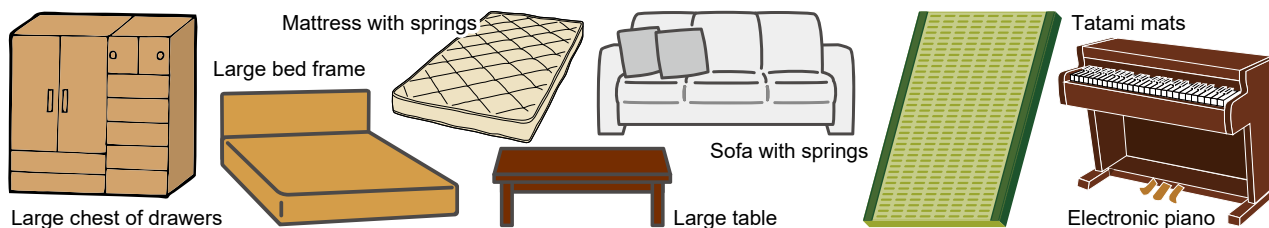

Items that are difficult to collect and transport

The following garbage will not be collected at the collection point. Ask a general waste collection and transportation licensed company to collect it, or make a reservation in advance and bring it in directly. Please check the collection calendar or the union homepage for a list of licensed companies.

(1) Items that cannot be transported (2) Items specified by product name regardless of size

- Items which the total of the three sides (length, width, and height) is 3 m or more or the longest side is 2 m
- Weight over 60kg

Organs, mattresses with springs, sofas with springs, tatami mats, electronic pianos, drums, home tanks, bathtubs, etc. For details, please check the sorting list after P12 or check on the homepage.

Temporary large amount of garbage due to moving, etc.

If a large amount of garbage is temporarily generated due to moving, etc. and the amount is too large to be put out at the collection point (limited to 10 bags or more in 45 liter bags or 1 light truck or more), please ask a general waste collection and transportation licensed company for collection, or make a reservation in advance and bring it in directly by the person who is discharging it.

Items not collected / accepted

Items that are not collected / accepted and their disposal procedures

Electone / piano	Please consult your dealer shop.
Large safe / fireproof safe	Please consult your dealer shop.
Gas cylinder / propane gas cylinder	Please consult a cylinder dealer or the Iwate LP Gas Consumer Counseling Center (☎019 - 623 - 6471).
Commercial stocker	Please consult with a specialist (collection and transportation company) to have them picked up.
Car battery	Please consult with an automobile supply store, repair shop, gas station, etc.
Car parts (bumpers, etc.) and tires	Please consult your distributor shop or dealer shop to have them picked up.
Concrete blocks / bricks	Please consult with a specialist (collection and transportation company) to have them picked up.
Mobility scooter	Please consult your dealer shop.
Rechargeable battery	Please consult your dealer shop.
Fire extinguisher	Please consult the Eco Cycle Center (📞0120 - 822 - 306 URL: https://www.ferecycle.jp) or consult your dealer shop.
Thinners, paints	Please consult your dealer and have them picked up.
Gypsum board, insulation materials	Please consult with a specialist (collection and transportation company) to have them picked up.
Electric bicycle battery	Please consult your dealer shop.
Kerosene, oil, waste oil	Please consult with a gas station, etc. and have them picked up.
Length over 50 cm, thickness over 5 cm Tree branch	Cut it to the specified length before carrying it in. If you cannot cut it, consult a specialist.
Fireworks, gunpowder, match	Please use up the contents. We will not accept unused items.
Warning flare	Please consult your car dealer.
(For printers) Ink cartridge, toner	Please put it in the collection box at the store.
Chemicals, pesticides and powerful drugs	Please consult with your dealer, retailer, or agricultural cooperative to have them picked up.
Agricultural vinyl	Please have it picked up at the agricultural cooperative.
Agricultural equipment and materials	Please have it picked up by a resource recovery company or agricultural cooperative.

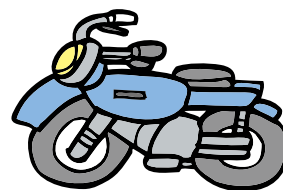

Motorcycles including motorized bikes, and their disposal procedure

- Domestic motorcycle manufacturers and importers have voluntarily created a "motorcycle recycling system" and are working to recycle discarded motorcycles.

Target product

Motorized bicycle, light two-wheeled vehicle, small two-wheeled vehicle

(Not applicable: Sidecar (sidecar part), buggy car, electric kickboard, bicycle with electric assist)

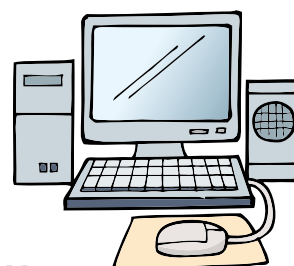

- **Disposal procedure.** Please ask the "disposal motorcycle dealer" or "pick-up window" for disposal.
- **Details** ・ **Contact information for each manufacturer,** Motorcycle Recycling Call Center ☎050 - 3000 - 0727
Reception hours (excluding weekends, holidays, year-end and New Year holidays, etc.) 9:30 to 17:00
Public Interest Incorporated Foundation, Automobile Recycling Promotion Center
<https://www.jarc.or.jp/motorcycle/>

Personal computer (including display) and its disposal procedure

- Based on the Law for Promotion of Effective Utilization of Resources, personal computers (including displays) will be recycled.

Target product

- (1) Desktop personal computer
- (2) Laptop, notebook-sized personal computer
- (3) CRT (Cathode Ray Tube) display
- (4) Liquid crystal display
- (5) Accessories (keyboard, mouse, cable, etc. included at the time of purchase)

- **Disposal procedure.** Please apply for collection directly to the manufacturer.
- **Details • Contact information for each manufacturer.** General Incorporated Association PC 3R Promotion Association
7th Floor, Nakakita Bldg, 3-8, Kanda-Ogawamachi, Chiyoda-ku, Tokyo 101-0052.
☎03-5282-7685 <https://www.pc3r.jp>

Specified household appliances (home appliances) and their disposal procedures

- Based on the Home Appliance Recycling Law, the following 4 home appliances are available.
 - (1) Request a home appliance retailer with a fee
 - (2) Request the collection and transportation company to recycle home appliances with a fee.
 - (3) Please transfer the home appliance recycling fee at the post office and bring it directly to the designated collection place.

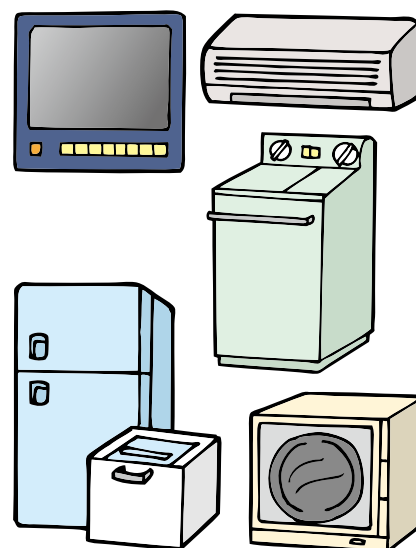

4 items of home appliances

- (1) Home air conditioner
- (2) TV set
* CRT type, liquid crystal and plasma type (limited to those that do not use primary batteries or storage batteries as power sources, excluding those designed to be incorporated into buildings)
- (3) Electric refrigerator / freezer
- (4) Electric washing machine / clothes dryer

- **Designated pick-up location (when you bring your own)** Nippon Express Co., Ltd. Morioka Branch
2 - 4 - 35 Distribution Center Minami, Yahaba-cho ☎019 - 637 - 6411

Estimated recycling fee (including consumption tax)

Home air conditioner		from 990 Yen	In the case of retail stores and collection and transportation companies, transportation charges will be added.
TV set	15-inch or below	from 1,320 Yen	
	16-inch or above	from 2,420 Yen	
Electric refrigerator	170ℓ or less	from 3,740 Yen	
Electric freezer	171ℓ or more	from 4,730 Yen	
Electric washing machine / clothes dryer		from 2,530 Yen	

* Recycling fees may vary depending on the manufacturer.

If you don't know
how to put it out,
look at the table and
sort the garbage out!

Garbage separation dictionary

By 50 sounds
List

We have posted the main garbage from homes. Please have a look when you are wondering under which classification to put out your garbage.

*It is not possible to dispose of business-related garbage at a local garbage collection point.
Please carefully look at the recycling mark, sort your garbage, and put it out.
